## About the Course

The CHC30121 - Certificate III in Early Childhood Education and Care course reflects the role of educators in early childhood education and care who work in regulated children's education and care services in Australia. They support children's wellbeing, and development in the context of an approved learning framework. Educators use a range of well-developed skills and knowledge using discretion and judgment when carrying out their work in the context of established policies and procedures. They may work independently or under the guidance of others, though in some contexts that guidance may not be on-site.

This course teaches you the skills and knowledge to provide care to children, and to plan engaging and educational activities to maximise their development. You will be able to create individual profiles and provide appropriate education and care for the children you are working with. You may choose to work under direct supervision or autonomously.
