About the Course

The HLT33115-Certificate III in Health Services Assistance (Assisting in Nursing Work in Acute Care) covers workers in a range of work roles who provide assistance to health professional staff with the care of clients.

Health Services Assistants work in direct client contact but under supervision. The curriculum for this qualification has been structured with elective groups for specific work functions in assisting in nursing work in acute care. Additionally, the qualification supports the multi-skilling requirements of smaller and rural or remote work settings. This qualification is suited to Australian Apprenticeship pathways.

This course follows Competency-based training which is the concept that individuals learn at different rates as well as through different modes and different environments and that the skills and knowledge that a student has acquired previously are able to be formally recognised.

Mode of Delivery

Blended Delivery

(Blended: Online real-time theory tutorials with on-campus skills training in a simulation environment)

Students must attend 20 hours of classes per week. This includes simulation-based assessments and professional experience placements.

20 contact hours per week will be delivered through synchronised online learning, which includes on-campus simulation-based training and professional experience placements.

In addition to structured learning, students should plan for approximately 10 hours per week of unstructured learning.

Students must meet additional requirements for professional experience placements (PEP), such as obtaining a clear police check, working with children check, and necessary immunisations.

Simulation-based assessment (1 to 2 weeks on campus) and Professional Placement (80 hours, approximately 3 to 4 weeks) are mandatory.

*Please call your respective campus locations for more details
