About the Course

It is widely acknowledged that counselling is one of the most personally fulfilling professions. As a counsellor, you will accomplish what you love and have the comfort of knowing there are several career and self-employment alternatives.

This qualification reflects the role of counsellors, who work with clients on personal and psychological issues. They use established counselling modalities and apply communication, micro-counselling and interviewing skills, besides varied counselling therapies, to assist clients. A counsellor at this level will be working in a defined and supported counselling role in an established agency rather than in independent practice.
